

# AKF <sup>Alabama</sup> Kidney Foundation

Meet Victoria, 23. At the age of 2 she was diagnosed with chronic kidney disease and hearing loss after suffering from another illness. She has been on dialysis ever since. Although her health has been up and down, one thing she knew she could count on was the support of the Alabama Kidney Foundation. Throughout her life the AKF has assisted Victoria with transportation, medical and daily living need expenses. She says, “Without the AKF, some of our hard times, would have been much harder. I am very thankful for their support.” With your support, patients in North Alabama will continue to receive the critical assistance they need.
